

**Title:** *Attribution of Inventorship – Triton Energy System*

I, **Clinton Fisher**, hereby declare that I am the original inventor of the system herein referred to as the **Triton Energy System**. This invention constitutes a novel, non-combustion, high-efficiency electrochemical process utilizing a replaceable aluminium-based anode and liquid oxygen (LOX) as an oxidizing medium. The energy system described herein converts chemical energy directly into mechanical and electrical outputs using a proprietary configuration of materials and geometry.

As of the date of provisional patent lodgement, this document and its associated materials (including the redacted audit summary and supporting validation statements) serve as formal, timestamped evidence of authorship, inventorship, and disclosure.

All proprietary system elements not disclosed in this redacted release remain confidential under Australian IP law and are protected internationally under the Paris Convention for the Protection of Industrial Property.

**Inventor Name:** Clinton Fisher

**Date of Public Attribution:** 3 July 2025

**Country of Origin:** Australia

**Primary Jurisdiction of Patent Filing:** IP Australia

**SHA-256 Hash of Redacted Audit:**
